

Boom Boom Satellites, Dive For You

I would dive for you
I would dive for you
Good times are rollin'
Bad things are not here
No one else compares
No one compares to you

I would dive for you
I would dive for you
Good times are rollin'
Bad things are not here
No one else compares
No one compares to you

I would dive for you
Feeling like I'm hypnotized
Make me what I am
Make me who I be
Time of my life now
Time of my life now, man

I would dive for you
I would dive for you

See you next life time and push me
I can be what you want me to be girl

See you next life time and push me
I can be what you want me to be girl

See you next life time and push me
I can be what you want me to be girl

See you next life time
See you next life time and
See you next life time
And push me

I can be what you want me to be girl
I can be what you want me to be girl
I can be what you want me to be girl
