Boom Boom Satellites, Intergalactic

You know you wanna get over
You need it to be around
You could fall all over
Slipping down a slide
Crush and burn going nowhere, and I don't care
Don't compromise on what I want to be
Crush and burn going nowhere, and I don't care
I'll crawl on the floor flapping my hands
Intergalactic
Party's over
Begin to breath
Better catch up
Intergalactic
Party's over
Starting to fly
Now It all comes
Bring it on down I'm
Starting to like this
I gotta go now
I gotta go
Totally wired
We're connected
All in the right place
All in the right place
Better go
Nobody tells you the reason
No matter how you try
How do we get to stay close
Come if you're gonna get some
Grab a hold of my shoes and you fly away
Seven counts in which I can't wait now
Grab a hold of my shoes and you fly away
So dance to the sound if you still can
Intergalactic
Party's over
Begin to breath
Better catch up
Intergalactic
Party's over
Starting to fly
Now It all comes
I can feel it
Rushin in my veins
Drivin' my soul I'm
Drivin' my soul
Nothing behind you
Pushin' the heat back
Gotta get over
Gotta get over
Over now
You know you need it I need it too
I can't sleep at night
Changing your way can save you
Over and over again
Night and day Smash it up til there's nothing left
What remains is so small so turn out the lights
Night and day Smash it up til there's nothing left
And I know I'll never get them back
Intergalactic
Party's over
Begin to breath
Better catch up
Intergalactic
Party's over

Starting to fly
Now It all comes
Bring it on down I'm
Starting to like this
I gotta go now
I gotta go
Totally wired
We're connected
All in the right place
All in the right place
Bring it on down I'm
Starting to like this
I gotta go now
I gotta go
Totally wired
We're connected
All in the right place
All in the right place
Better go
