Boom Boom Satellites, Morning After

No way outta here and nothing to feel I thought I had a treat in the refrigerator It's time to wake up and smell the coffee I'm falling back to sleep when it's over

Let yourself down Down on your knees Please ease along in the morning after Once again I'm back where I belong So Come over, Come on over

Drink it up You better wake up I wanna move on I'm doing better now

Don't let your mind rot What are you afraid of? Face to face in the morning after Sooner or later I'll come closer No one else that could ever do?

Rip it up You better watch out To get your freak on I'm just killing time?

How many ways to show you how I feel Sometimes in dreams yo'near to me then I'm up and I will take you anywhere Faster and faster trippin' to nowhere

Goin' down and out in paradise Day after day, no hiding anywhere How many more times How many more times I wonder How come you treat me bad

Roll it up There ain't no need to hide I gotta ride on You better sign up

Don't let your mind rot What are you afraid of? Face to face in the morning after Sooner or later I'll come closer No one else that could ever do?

Rip it up You better watch out To get your freak on I'm just killing time?
