

# Boom Shaka, Freedom Now

(chorus)

Freedom now  
Freedom songs  
People want their freedom now  
People need their freedom now  
People want their freedom now  
Freedom songs  
People want their freedom now  
Freedom now

Not like before not like that again  
Where we will have to hide  
To say what we believe  
Not like before, Not like that again  
Or then the end will justifies the means  
We've been checking out our history  
Most of what you told us was f\*\*kery  
I see your house sitting on sinking sand  
I tell you so, so

What you gonna do  
Where you gonna run  
How you gonna feel  
When your house melting down  
What you gonna say  
What's really on your mind  
Truth and rights

chorus

Every heart that beats  
Every heart that beats in Africa  
Every soul that grooves  
In third world countries  
I think it is just mystical  
Really, really radical  
Them survive this economic mercenaries  
It is so crucial, critical and crucial  
We control our destiny  
I tell you so so
