

Booth And The Bad Angel, Heart

And when you took that stand
I was so proud of you
And now I'm not so sure
You should have let them through

And when the curtain fell
I saw you standing there
Just looking so alive
And then you started to fly

Heart, I'm so eager to please
Heart, let me dance my disease
Heart, I just long to be free
To be healed

And so they ran to you
They tried to hold you down
But you just slipped your skin
And let the whole world in

Heart, I'm so eager to please
Heart, let me dance my disease
Heart, I just long to be free
To be healed

I've been looking for meaning
Been afraid of these feelings
Got stuck in my mind
Cut myself into pieces
Now I'm coming home in pieces
Coming home in pieces
Coming home

Heart, I'm so eager to please
Heart, let me dance my disease
Heart, I just long to be free
Heart, I just long to be healed
Heart, I don't know what I need
Heart, let me dance my disease
Heart, I'm just longing to heal
Heart, come on ride the medicine wheel
