

# BOOTS, Dreams [feat. Beyonce?]

All my life I've been dreaming of you  
I've been dreaming of you, I've been dreaming of you  
Dreaming of you

Stop asking so many questions now  
I slip on your slip, but got a long, long way to go  
You got a long, long way to go  
I sleep on the floor-boards, I kiss the ground  
My heart is a stone, I got a long, long way to go  
I got a long, long way to go

All my life I've been dreaming of you  
I've been dreaming of you, I've been dreaming of you  
Dreaming of you

Yeah, I know the problems I'm left with  
See I know the leaves were our first gifts  
I know how I hurt you, I'm certain my tongue sets on fire, a furnace  
Yeah, we'll always find a way and we'll always find a way  
A way, a way to wake up  
A way, a way, a way, a way

[Beyonce & BOOTS:]  
All my life I've been dreaming of you  
I've been dreaming of you, I've been dreaming of you  
Dreaming of you

[Beyonce:]  
Cause baby we got a lot of life to live  
You're the only one that I would stand by  
And baby we got a lot of love to give  
Maybe we could put the whole world on standby

[Beyonce & BOOTS:]  
All my life I've been dreaming of you  
I've been dreaming of you, I've been dreaming of you  
Dreaming of you
