

# Bootsy's Rubber Band, Can't Stay Away

I just cant stay  
I, I cant stay  
Oh, I cant stay  
Hey!

Oh I cant stay away from you too long  
I hum your face just like a new song  
Your smile is like a punch line  
The part you sing all the time  
Oh I cant stay away from you too long

You know your name should be Melody baby  
Cause your personality is, uh, so melodic  
I been dreamin to the tune of you  
Since first we met  
You turned me on in a day

Ever since I kissed you  
I could never stand to miss you  
So Im singing bout your kisses  
Every moment of the day

Oh I cant stay away from you too long  
Your melody, I taste them when youre gone  
Your smile is like a punch line  
The part you sing all the time  
Oh I cant stay away from you too long

Youre number one with a bullet  
On my chart  
Youre a total smash baby  
Pop, youre R&B, youre MOR  
Youre easy listening  
You turned me on in a day baba

Ever since I kissed you  
I could never stand to miss you  
So Im singing bout your kisses  
Every moment of the day

Youre so psychedelic baby  
Youre also pretty music to my ears  
By the way  
What key are you in baby?  
La di da, la di da, la di di da da baba  
Well

I cant stay away  
I cant stay away  
I cant stay away  
I cant stay away  
I just cant stay away  
I cant stay away  
I just cant stay away  
(repeat over and over)
