

Boris, My Special Girlfriend

Entering the club at 10, Friday, payday, time to spend
Look around trying to find, the someone to blow my mind

But then I see her and time just stops for a while
She looks like an angel to me you should see her smile
The way that she dresses, the way she does everything
She's perfect to me I think I'll buy her a drink

Chorus:

I've been watching u girl, and I like what I see
Won't you come home with me girl
You're making me feel, like oh my god is this real
Won't u be my special girlfriend

I order a bottle of champagne
Trying to figure what to say
My knees start trembling as I
Walk towards her feeling high

But then I see her and time just stops for a while
She looks like an angel to me you should see her smile
The way that she dresses, the way she does everything
She's perfect to me I think I'll buy her a drink

Chorus

When I saw you within a second I just knew
Nothing could stop me girl from getting close to you
And the she said:

I've been watching you boy, and I like what I see
Can I go home with you boy
You're making me feel, like oh my god is this real
Could I be your special girlfriend

Chorus (Repeat)
