

Born Against, 13 This Trash Should've Been Free

This trash should've been free, take the bus to the city run while you f**king
can This trash should've been free, break the monotony of falling into rank
in parking lots This trash should've been free, you don't have to serve god & amp;
country or eat the things they've forced on me This trash will never be free
you flickered out and died far away in a place where they'll take your life on
credit trash free this trash is just a memory that's nursed like stolen
whiskey and though you're still alive I know you'll choke and suffocate.
