

# Bow Wow, Go

[Chorus 2x]

If you don't wanna dance  
I can find me somebody else that do, do  
If you don't wanna dance  
What you here for girl you need to move, move  
If you don't wanna dance  
Than it best you turn this off right now  
Cuz I am the B-O-W-W-O-W  
And it's about to  
Go, go, go, go (down)  
Go, go, go, go (down)  
Go, go, go, go (down)  
It's about to  
Go, go, go, go (down)  
Go, go, go, go (down)  
Go, go, go, go (down)  
I choose you, I choose you

[Verse 1]

Lil kids love me like Santa Clause  
And I'm under 21 wit a Phantom Boss  
Mane dressed like big  
I called the play  
Run, pass, shorty I can hand it off  
You know I run wit a crew that ain't ever lost  
We young, we rich  
And we love to floss  
You gotta pay the cost  
To hear me breathe  
Bow Wow representin that DPG  
26 inch chrome  
With a lake front home

Heavy in the hood, like straightening combs  
I can have any girl in this world that I want  
But I choose you, I choose you

[Chorus]

[Verse 2]

Bow Wow still holdin the top spot  
Roll in the hot drops  
Been in control since I came out the bow  
And I sell like rocks in the 80's  
Number one just like Tracy McGrady  
This young thug  
Can't non yall see me, fade me  
keep cash money like Baby  
I'm crazy  
If I must say so  
And I lust for the dough  
Push em everytime I bust my flow  
I'm a blessed young man  
And the best young man that you very heard rock befo  
I can have any girl that in this world that I want  
But I choose you, I choose you  
But ugh

[Chorus]

[JD]

Bow Wow lemme get some  
  
I'm the wrong one for you to be tryin to race wit  
Face it dog  
Ain't no replacement

I made a few mill off  
Somethin that I started in the basement  
Yall shoulda never lemme taste it  
Back when niggas was wearin Asics  
I ain't just do it, I aced it  
I'm rich but I'm still tryin to chase it  
That's why everything I do I lace it  
2 Bently's  
A hundred grand for the bracelet  
To you that's a alot but to me that's basic  
And it's so many girls out there  
But I choose you, I choose you  
But ugh

[Chorus (fade out)]
