

Bow Wow, Number Ones

What you hear is the voice of a prince in his prime
I articulate and other just rhyme
I paint the picture nigga I'm Picasso
Raw from the brick to the nostril hostile
Sick and I seek no cure speak nothing but the truth
The shit keeps ya boy so peeuw
Never will I sound like he is not be though
I'm on my own dick my no hoe
Couldn't be in the same room as octane
I see you doin' ya thing but you ain't the same
Now I'm sittin' poolside with bad females
Wipe off the gucci shades yeah I can see well
Touch my mula I'll choke ya like spreewell
Mercedes drop a baby and you know it's v12
Pound for pound we the hottest doin' it
Anything I want outta life I'm pursuing it
Ain't respecting the game, they just ruin it
I'm a bring hip hop back, watch how I'm doing this
Flood the whole game, then float like noah
Slip in the well and sing hymns like jonah
On the stage alone, one mic, I'm a loner
I'm the heartbeat to in my city on the corner
So they call me swagger doner since life is my I'm a stagger on her

[Chorus:]

Yo soy numero uno

Yo so optimo

You want more nina bonita

I'll give you more, I'll give you more

Left side scream, right side scream

Middle to the top

You want more nina bonita

I'll give you more, I'll give you more

See the money means nothing if I can't hear you

To get here

If I only knew what we went through

Blood sweat tears

Turn it into bright lights along with cheers

Never will I move like he who is not, I'm on my own shh, I'm on fire

Hot like flame, the flow is not the same

I'm the connect, respect the left lane

Te pace has been set, ain't no stopping me

Jewelery alone can buy property

Get money split it 2 ways, the new face tycoon status what can you say

It's irrelevant man, we selling out stadiums

Staples center to the palladium

Entertaining them

Giving you numb one

[Chorus:]

Yo soy numero uno

Yo so optimo

You want more nina bonita

I'll give you more, I'll give you more

Left side scream, right side scream

Middle to the top

You want more nina bonita

I'll give you more, I'll give you more

Scream

Scream

Scream
