

# Bow Wow & Omarion, My Baby

You're my

You're my

You're my baby baby baby baby baby

You're my baby baby baby baby baby

yeahh yeahh

ohhh-ohhh

[Verse 1]

It was the summer 2001

All before the drama begun

When we first met

I seen you sitting out on your steps

You was broke down crying a mess

So I interfered

I asked what's the reason for tears

I was wishing you could tell me your fears

But I had to start with ya name

You told me how ya man playin games

So I said that it was time for a change

And you just laughed

But it looked like you aint laughed in while

I was glad I could give you a smile

Then we both blushed

But really girl it aint no rush

I was thinking that maybe we can discuss

A future for us

Cause homeboy just got you crushed

You need to leave that clown in the dust

Trust

I just wanna talk

I'm thinking I can give you a call

And we can pick it up

Where we left off

I'll holla tomorrow

[Chorus]

Girl I understand you loyal to ya man

And that's alright aww baby

But that dont change the fact

That you fight and you stay crying every night Oh baby

Girl you got to let him know

You can't live like this no more

Aww baby

Can't you see

Together you and me could be so special baby

[Verse 2]

Our feelings get greater

A million days later

Talking all night "please stay up" but

Here comes ya ex

Returned with that drama and stress

All the nonsense that you just left but yet

You accept and go back to try it again

Then return with a broken heart

That I gotta mend

That's unfair

I've only been your lover and friend

And homey there he just front and pretend

But you dont care

The life he leads is unsafe

I would never place my hands to your face

But still I chase

Cat and mouse

First you kick him out

Then you at his house

What is that about

I cant figure you out

Even your friend said I was better  
But you listen to them never like "uh-uh whatever"  
So the next time he hurt you again  
You already knew where you should've been  
And that's with me

[Repeat Chorus]

[Verse 3]

All the times 2way me  
Telling me that you miss me  
Wanting me to come over and keep you busy  
Remember that  
Now that you gone  
It's been kinda hard  
Cant think, cant sleep  
Cant do nothing at all  
Just tell me why you had to go back  
See you aint have to go through that ( u aint have to go through that)  
My baby  
You could've been here right by my side  
Me and you at the park taking walks outside  
But  
Instead, I keep on having these dreams  
Waiting for my phone to ring  
My baby  
Wishing that it would be you  
But I know that that wont come true  
My baby

[Chorus]
