

Bowling For Soup, Where To Begin

Sail away
Sail away with me
I don't have a ship
But we can get one easily
Drift away
Drift away with me
In a raft we'll make of memories
On an ocean we can call forevermore

I wanna find
Peace of your mind
I wanna see
Your make believe
I don't wanna try so hard
I make it hard for you to breathe

Jump into the ocean
Leavin' on a notion
If you're caught up in the motion
Backtrack and do it again
And if you make it up
I could never get enough
Me and you together
But you've gotta tell me where to begin

Break away
Break away from me
No forget that
Just sit here and look at me
Summer's day
Summer every day
Watch the sunset come back up
And we know it's never goin' down again

I wanna find
Peace of your mind
I wanna see
Your make believe
I don't wanna try so hard
I make it hard for you to breathe

Jump into the ocean
Leavin' on a notion
If you're caught up in the motion
Backtrack and do it again
And if you make it up
I could never get enough
Me and you together
But you've gotta tell me where to begin

I've been savin' up
To buy more time with you
You've been livin' it up
With someone else
And that's ok
I know it
You know it too

Jump into the ocean
Leavin' on a notion
If you're caught up in the motion
Backtrack and do it again
And if you make it up
I could never get enough

Me and you together
But you've gotta tell me where to begin
Where to begin
You've gotta tell me where to begin
