

Box Car Racer, Dance With Me

Last stop on the bullet train
Need time to feel it out
This I'll make her scream
So what do I do right now
Give up and let it go

Need time to take it in
Lean back and breathe me out
Hell yeah, do that again
So what do I do right now
Give up and let it go

Just like the other day
Need time to ride it out
Not going back again
So what do I do right now
Give up and let it go

Last stop on the bullet train
Need time to feel it out
This time I'll make her scream
So what do I do right now
Give up and let it out

Need time to take it in
Lean back and breathe me out
Hell yeah, do that again
So what do I do right now
Give up and let it out

Just the other day
Need time to ride it out
Not going back again
So what do I do right now
Give up and let it out

Just like the other day
Need time to rock it out
Not going back again
So what do I do right now
Just give up and let it out

Give me, give me some more
Give me, give me some more
Give me, give me some more

Just like the other day
Need time to ride it out
Not going back again
So what do I do right now
Just give up and let it out

Just like the other day
Need time to rock it out
Not going back again
So what do i do right now
Just give it up and let it out

Just like you want to do
Me lying there over you
Lean back and take me in
So what do I do right now
Just give up and let it out

Just like the other day
Take time to rock it out
Not going back again
So what do I do right now
Just give me all or nothing
