Boy George, Leave In Love

Featuring caroll thompson
Don't try to judge me by your feelings
By telling me that I'm too plain
You know it hurts to see you aiming
But if you love me
Then it's better to leave this way

It's better to leave in love (so much better)
If you believe in love (if you believe)
Better to leave in love
It's better to leave this way

You always say that love - it hurts
You never thought the beat would end this way
But if the magic's lost between us, between us
Then there's nothing, no there's nothing to say

It's better to leave in love (so much better)
If you believe in love (if you believe)
Better to leave in love
It's better to leave this way

It's better to leave in love (so much better)
If you believe in love (if you believe)

Believe in love
It's better to leave this way

I don't understand you
When you say you're not that strong (you know that I'm not that strong)
It's not that I don't love you
But you know that the feeling's gone

I don't understand you
Oh you know that it's true
But I could never hide my love
It's not that I don't love you, love you
You know I do
You know that I do

It's better to leave in love (so much better)
If you believe in love (if you believe)
Better to leave
It's better to leave this way

To leave in love
If you believe in love (if you believe)
Better to leave, to leave in love
It's better to leave this way
