

Boys Like Girls, THE OUTSIDE

It's ok, it's alright
Baby welcome to life on the outside
Sleep all day, ride all night
Yeah we're living it up on the outside

I remember the days in the class of '04
In back of the jeep crashing out on the floor
We had nothing in our pockets to cling to
And baby nothing but the sky in the rear view
In the halls with a rock t, Dickies and Chucks
All the meatheads and mean girls like "dude your band sucks"
Had a bandanna hangin' out of my grad gown
Like you can push me all you want I won't fall down, no

It's ok, it's alright
Baby welcome to life on the outside
Sleep all day, ride all night
Yeah we're living it up on the outside
And you can knock it if you really want to
But were the life of the party
It's ok, it's alright
Baby welcome to life on the outside

Watch the sunset fade to a parking lot glow
We were kings and queens of the strip mall row
Trading million-dollar ideas for 8th bags
Our little fortunes built on lighters and dog tags
With our fists in the air and the radio up
We were dying to live, we were living on luck
When they would try to pick a fight in the hallway
We'd just throw a finger in the air and say

It's ok, it's alright
Baby welcome to life on the outside
Sleep all day, ride all night
Yeah we're living it up on the outside
And you can knock it if you really want to
But were the life of the party
It's ok, it's alright
Baby welcome to life on the outside
Yeah, yeah, yeah, welcome to life on the outside

That's life and we're just living the life
That's life and we're just living it...

It's ok, it's alright
Baby welcome to life on the outside
Sleep all day, ride all night
Yeah we're living it up on the outside
And you can knock it if you really want to
But were the life of the party
It's ok, it's alright
Baby welcome to life on the outside
Yeah, yeah, yeah, welcome to life on the outside
