

# Boysfire, Swingset

I am here, take this  
I can't feel anyway  
I can't hurt  
I can't bleed  
But I can kneel as well as you once did

Deep inside, I can hear the screams  
Growing louder everyday  
Crying out for a new rain

Manipulate my submission  
To put your pain onto myself  
Momma said that she would save me  
The Angels said that they would save me

Deep inside, I can hear the screams  
Growing louder everyday  
Crying out for a new rain

I can fly  
I can fly away  
I can fly away from you  
Daddy, catch me  
I can fly, I can fly away  
I can fly away from you (repeat)  
Daddy, I can fly away  
So why's the pavement look so damn close  
Why's the pavement so damn close  
Why's the pavement so damn close
