

# Boyz II Men, Girl in the life magazine

I fell in love with the girl in the picture  
That I use to keep  
Carried her 'round in the back of my pocket  
She was always with me  
I imagine that I was a man of importance  
And she had a fancy for me  
And I use to dream she would call  
Crying her eyes out  
She had an obsession with me  
I was the love of her life  
And she was all mine

Chorus:

The girl in the Life magazine  
The first time we met in an aisle  
At the market  
She was staring at me  
I knew even then we would share  
Something special  
And it was like chemistry  
I fell in love from the moment I saw her  
So I took her straight home with me  
And that's where I'd dream  
She would step right out of the picture  
And spend a while evening with me  
And oh how she hated to go  
Back to her picture

Chorus

All of my friends use to laugh  
Said I was certifiably mad  
'Til the day that she came  
And she blew them away  
And asked me if I'd be her man  
It seems that she went and fell  
In love with my letters  
Says she's been looking for me  
So the story ends well  
We end up together

Chorus
