

Boyz II Men, Never Go Away

there you are,
standing there
make me wanna reach,
i went touch you
and went my fingers through your hair
i know, you gotta go
but i want you to stay
so we can get a little closer
and do things my way

baby you're so beautiful
honey you're special too
you make me wanna do things
i never thought i do
like put you up in my home
my fancy things
we make lots and lots of babys
and i buy you a big diamond ring

chorous:
never,
never go, never go away from me,
baby stay with me.

so never,
never go, never go away from me,
please stay with me.

we thought
so i can dreeve you in
wanna know every single detail
feel the moment of your skin
baby, would you ever leave me?
my heart will show, love die
so please be with me forever
would you ever say goodbye

chorous:
never,
never go, never go away from me,
baby stay with me

oh never,
never go, never go away from me,
baby stay with me
