

# Boyz II Men, Will

(Nate Morris)

Do you remember when?  
We would gaze upon  
The heavens up above  
Revealed within the night  
Took turns in looking thru  
A telescope discovering  
A little star that smiled right back at us

I never strayed away far from all the crowds  
A hint of solitude  
Concealed behind your smile  
Remember when the lights went out that summer's eve  
We stumbled in the dark and kissed beneath the stars

Wonder if it's possible to ever know  
How many dreams I've cherished since that time ago  
People only dream, when they close their eyes at night  
But I'll open up my eyes

Wonder if it's possible to ever know  
All the skies I've journeyed thru and touched before  
Some rely on fate  
But it's not the only way  
This is my destiny  
And this is my will

(Shawn Stockman)  
The sparkle in the night  
Glitter in the sky  
Each star we see at night  
Have all been here before  
There really has to be  
Some place nobody has seen  
And there we'll start anew  
Future for me and you

Memories illuminate in harmony  
Like a constellation bound in unity  
Tho they used to sing  
So scatter thru the sky  
I recognise the beauty

Memories in circle all around me  
Illustrate passage thru this journey  
Confirming my belief, this is no coincidence  
This is my destiny  
This is my will

(Wanya Morris)  
Horizons I have crossed in the past  
Chapters in the story of my life  
All the midnight skies  
Are promising forever more  
I'm reaching out to soar

I wonder if it's possible to ever know  
How many dreams I've cherished since that time ago  
See people they only dream  
When they close their eyes at night  
But I'll open up my eyes

I wonder if it's possible to ever know  
All the skies I've journeyed thru and touched before

So rely on fate, but it's not the only way  
This is my destiny, this is my will
