

# Boyz II Men, Wishes

Here I am on my own  
It gets hard sometimes when I'm traveling this empty world  
All alone I get tired  
And oh I get oh so weak  
And I need for someone to come and rescue me  
To help me along to catch when I miss  
To show me where I oughta be  
So I can be strong and face all of this  
That my life tries to discourage me with.  
With a little luck will I find you  
And if I do it is you who'll make my dreams come true  
Just a little bit of happiness  
Is all that I wish  
And I hope that you can grant me this  
When I look at my life  
And where I've been  
And I wonder if the story has a happy end,  
Like they always do, but if my wish comes true  
I just hope and pray I always can depend on you  
To help me along to catch when I miss  
To show me where I oughta be  
So I can be strong and face all of this  
That my life tries to discourage me with.  
With a little luck will I find you  
And if I do it is you who'll make my dreams come true  
Just a little bit of happiness  
Is all that I wish  
And I hope that you can grant me this (Repeat)  
(fade out)
