

# Boyz II Men, Your Love

Your your your your love

Oh, it's gettin' hot in here (it's gettin' too hot in here)  
So turn the lights down low  
And lets move our bodies in control  
You know what I need sweetie  
Take this time and you will succeed  
In loving me the way I like it  
Your love

Chorus

Your love is too hot  
I can feel your love running through my mind  
Nobody loves me you're a one of a kind  
Your love  
Your love is too hot  
Your love

Stop right here, baby (stop)  
I can't take it anymore  
It's just the way you move  
And the way your kisses groove  
Love is on the rise  
And caress me with surprises  
Of your love, love

Bridge

I love it when you hold me  
'Cause you hold me so tight  
And I love it when you keep my attention  
Sharing love beyond mention

Your love is so right  
And I'll never have to look for another  
Your love  
Your love is so right  
Moving all down my spine

Chorus

Your love is aggressive but smooth  
Take me flat on my face

Bridge

Your love is so right

Mike's monologue  
I'm convinced  
I've got sense  
I'll never look for anyone else  
It's your love

Your love is so right  
Moving all down my spine  
You make me wanna lose my mind  
Your love  
Your love  
Feel so good I want some more  
Your love is so right  
I love it when you hold me

Chorus

I love it when you hold me  
Your love  
Your love is so right
