

Boyzone, Love Will Save The Day

She is to the broken hearts
To the ones that love
The ones that have the losing cards
He is to the sweet unknown
To the rails untold
Let the night unfold and the stars above

Pass around the bottle
And tell me your troubles
And la, la, la, la, la, la love will save the day
Yeah pass around the bottle
And I'll share your troubles
And la, la, la, la, la, la love will save the day

We're undecided
We're the ones that tried to find our way
Gotta find your promise
Gonna watch the night go up in flames
Pass around the bottle
And we'll share your troubles
Sing la, la, la, la, la, la love will save the day

Friends come and gather round
Throw your hands up high to the silent sky
Where the answer is found
Let laughter fill the air
Forget your worries
Carry on without a care

Pass around the bottle
And I'll share your troubles
And la, la, la, la, la, la love will save the day
We're undecided
We're the ones that tried to find our way
Gotta find your promise
Gonna watch the night go up in flames

Let me ease your every heart and
Fill it up with joy
Let the storm and seas departed
Let it guide you home

Pass around the bottle
And we'll share our troubles
La, la, la, la, la, la love will save the day
We're undecided
We're the ones that tried to find our way
Gotta find your promise
Gonna watch the night go up in flames

Pass around the bottle
And we'll share your troubles
Sing la, la, la, la, la, la love will save the day

Pass around the bottle
And we'll share your troubles
Sing la, la, la, la, la, la love will save the day
Sing la, la, la, la, la, la love will save the day
