

# Braaheim, Don't Leave Me

Northern lights shootin' diamonds in our eyes  
Let's drink till the party's over  
We caught a vibe with our palms up to the sky  
Let's dance before we're sober

I wanna come alive  
Chasin' this high  
Don't leave me  
I wanna stop this time in paradise  
Don't leave me

Northern lights shootin' diamonds in our eyes  
Let's drink till the party's over  
We caught a vibe with our palms up to the sky  
Let's dance before we're sober

I wanna come alive  
Chasin' this high  
Don't leave me  
I wanna stop this time in paradise  
Don't leave me

Dum di da da di da di da di dum  
Dum di da da di da di da di dum  
Dum di da da di da di da di dum  
Dum di da da di da di da di dum

Northern lights shootin' diamonds in our eyes  
Let's drink till the party's over  
We caught a vibe with our palms up to the sky
