

Bracket, A Place In Time

Another weary day
Has left me with a beautiful addiction
No work and all day play
Leaves me feeling happy
When the day is done

I'll suffer just like everyone
And I'll watch as my life starts collecting dust
And when my friends are all dropping like flies
I'll just go to another place in time

Another weary day
Has left me with a beautiful addiction
No work and all day play
Leaves me feeling happy
When the day is done

I'll suffer just like everyone
And I'll laugh as my life starts collecting dust
And when my friends are all dropping like flies
I'll just go to another place in time
Another place in time
Another place in time

I'll be the next
To die of sex
And desolation

I can't accept
The loneliness
Of being no one
