

# Bracket, Everyone Is Telling Me I'll Never Win

Daddy's Girl..

Is searching for a perfect day in her words

Before I get away in this world

And shit says smile

is out of style

It's been that way

For quite a while

And everyone is telling me I'll never win

If I fall in love with that for when

Daddy's Girl...

Is over with her company

What is with this world?

Growing up with empty Friendships

And smiles..

Are out of style

It been that way, for quite a while

Everyone is telling me I'll never win

If i fall in love with that for when
