

# Bracket, One More Hangover Day (Warren's Song)

Distance you far away from me  
Your daylight's not my cup of tea

I can't pretend that I have time to spend  
My medication takes the pain away  
I'm sleeping through one more hangover day

Inside my clouded memory  
I'm underneath my apple tree

I can't pretend that I have time to spend  
My medication takes the pain away  
I'm sleeping through one more hangover day

Give me an antidote for my heart  
So everyone can have their share  
Everyone can share (3x)  
Does anyone care

Distance you far away from me  
Your daylight's not my cup of tea

I can't pretend that I have time to spend  
My medication takes the pain away  
I'm sleeping through one more hangover day
