

Bracket, Spazz

The melodies are out of touch
With how I want to feel inside
The harmonies are not enough
To take me to the brighter side

It's so tragic
That I'm so spastic
I love everything about night
But I can't stand the days
The sun melts calmness away

My clarity is all fogged up
I'm never gonna see again
Your charity that I've used up
Is needed every now and then

It's so tragic
That I'm so spastic
I love everything about night
But I can't stand the days
The sun melts calmness away

It's so tragic
That I'm so spastic
I love everything about night
But I can't stand the days
The sun melts calmness away

It's so tragic
That I'm so spastic
I love everything about night
But I can't stand the days
The sun melts calmness away
