Brad, Buttercup

And I love to tie you up
And you love to let me down
We both try to cover it up
With a sound
You ain't my buttercup
I ain't your little fool
I know that ain't a part of the deal
We're through

It's just a matter of time It's just a matter of time

And I'd love to share the cost Butterfly The reason why we need to fly, high away

It's just a matter of time It's just a matter of time Before we're thrown back in the wheel! Before we're thrown back in the wheel!

Baby, I'll be hard pressed Maybe we're more simple too Ain't a region of water!

Before we're thrown back in the wheel!
