

Brad Martin, Run To Me

(Brad Martin/Mike Geiger/J. Ramey)

You feel you're turning in circles
There's no end to that dead end road
Running around all your feelings wondering which way to go
When that voice that's inside you
Gets so loud, you just wanna scream
And you find your blues in the way of a dream

Run to me, darling let me be the one
Who's waiting there when you need someone to turn to
When the night gets too dark and it's so hard to see
Run to me

When you're backed in the corner
Feels like you're facing the world all alone
Don't ever feel like you've gone to far to come back home

Run to me, darling let me be the one
Who's waiting there when you need someone to turn to
When the night gets too dark and it's so hard to see
Run to me

No matter where you are, I'm here with open arms
The day is gonna come, you're gonna need someone

Run to me, darling let me be the one
Who's waiting there when you need someone to turn to
When the night gets too dark and it's so hard to see
Run to me, darling let me be the one
Who's waiting there when you need someone to turn to
When the night gets too dark and it's so hard to see
Run to me
You can run to me
Baby run to me
Baby run to me
