

# Brad Paisley, Come On Over Tonight

You know I'm stubborn, set in my ways, said I'd never  
Fall in love, used all the old cliches  
But just now when you called and my heart rate hit the roof  
I realized it's time to eat my words and face the truth

So come on over tonight we'll sit on the swing  
Watch the pigs fly by flappin' their brand new wings  
Just sit back and relax and watch me eat my hat  
While the oak trees sprout dollar bills  
And I look you in the eye  
To finally say the words I swore I'd never say  
In my whole life  
So come on over tonight

I called my buddies, they're comin' too  
After the way I ran my mouth they can't  
Believe it's true  
They're bringin' pizza and sweet tea  
And I hope that you don't mind  
But they said they've gotta see this  
And they promise to be quiet

So come on over tonight we'll sit on the swing  
Watch the pigs fly by flappin' their brand new wings  
Just sit back and relax and watch me eat my hat  
While a big ol' bolt of lightning  
Strikes me not just once, but twice  
As I say the words I swore I'd never say  
In my whole life  
Yeah, come on over tonight

Me fallin' in love, that's one of those things  
That I swore would never come true  
But I'm startin' to think that nothin' is impossible now  
That I found you, nothin'

Yeah, come on over tonight we'll sit on the swing  
Watch the pigs fly by flappin' their brand new wings  
Just sit back and relax and watch me eat my hat  
See the premiere performance of demons on ice  
As I say the words I swore I'd never say  
In my whole life

Say, come on over  
Hey, come on over  
Said, come on over tonight
