

# Brad Paisley, Love Is Never-Ending

Seasons come and seasons go  
One day sun, the next day snow  
Flowers die and flowers grow  
But love is never-ending

You can't kill it with goodbye  
It always finds a place to hide  
Inside your heart for your whole life  
Love is never-ending

[Chorus]  
When the lights have all gone down  
It'll still be hangin' 'round  
Even when you think it's lost, it can still be found  
When every memory has been made  
And the pages start to fade  
And every prayer you ever prayed is heaven bound  
When you think the ride is over  
You're back at the beginning  
Love is never-ending

When a man and woman start growin' old  
The fire of passion may grow cold  
But what they got still warms their soul  
Love is never-ending

[Repeat chorus]

It keeps goin' on and on  
Long after we're all gone away

Time may change what you believe  
But one day the truth will set you free  
Just have faith and you will see  
Love is never-ending  
Love is never-ending
