

Brad Strut, Intro (Legend:Official)

Yeah Check It Out / This Is Brad Strut.....Legend Official
Controversial not commercial hot as Birdsville
Brad Strut rocking' earth till boxed and purple
Lost and hurtful and tortured
raps are gorgeous I'm attacking' the wacks fortress
Brad's enormous stab the chorus slit the lead in
spit the outro lift the legions
I'm standing here with my eyes closed bleeding'
A sideshow demon in a blind home speeding'
As time throws seasons I'm inclined to be typecast heathen
My minds past pleasing' so i try and shaft schemes
A violent path even for a child's laugh lifted
My styles half gifted and half quick wit
I'm stark sick kid ya can't rip this ya harms listed
My palm slaps you (slap) now you sport a split lip
A calm statue staring' into outer realms
A hard fact to swallow sounding loud as hell
I laugh at you cos you hollow as a rotten log
i got it god within the pod you only rock it dog.....Yeah
