

# Brad Sucks, Bad Attraction

I wanna do my own thing but I think I followed a trend  
It's been suggested baby I - I wanna be your best friend  
Blind in my eye holes and just trying hard to see  
I can tell by your middle finger that you're warming up to me

You got the message but I wanna give it to you some more  
Climb through the window then you try to show me the door yeah  
Where I put the sunshine baby well nobody knows  
We could get together without coming to blows yeah
