

Brad Sucks, Overreacting

when there's no place you feel at home
and you think you'd be better off alone
when you think there's no reason to try
and you hate yourself and wanna die

when you're filled with anxiety
and everyone's your enemy
when you wish you were someone else
and you wanna go out and kill yourself

ooh you're overreacting
(you can change your mind)
ooh you're overreacting
(take your time)

when you get yourself depressed
because you think you can't do your best
when you write yourself a stupid song
to remind yourself that you forgot
