

Brad Sucks, Time To Take Out The Trash

down in the mouth and having trouble remembering
hold my heart out loud and turn it up until your earrings bleed

time to take out the trash, you know it's easy
but it seems harder every time you try to think about it
time to take out the trash, you know it's easy
but it seems harder every time you try to think about it

it took me a while but now i'm head out into my own
in the back of the car bad mouthing the chaperone

officer i've gotta tell you a secret
me and my friends are gonna kill you at recess
