Brad, The Day Brings

Hold up your end And I'll hold up mine Dancin' all the time Dancin' all the time And too late father You know that that's for sure You never find a way Never find a way

So gather around And see what the day brings And see what makes you laugh And see what makes you sing And never, nevermind The thing that people say You'll never go away You'll never go away

Who knows where the storm will take us Who knows when the pain will break us When will all the G's be given Another chance to live in freedom Hey now Get your heart, get your heart Off of the shelf Make the grey sky blue Yeah, I'm talkin to you And nevermind The sick and the afraid Askin' out today to see a brighter day

So gather around And see what the day brings And see what makes you laugh And see what makes you sing And never, nevermind The thing that people say You'll never go away You'll never go away

Who knows where the storm will take us Who knows when the pain will break us When will all the G's be given Another chance to live in freedom

So gather around And see what the day brings And see what makes you laugh And see what makes you sing And never, nevermind The thing that people say You'll never go away You'll never go away So gather around And see what the day brings See what makes you laugh And what makes you sing
