

Bradley Michael, The Way To Love

She finds him strong and brave.
And how she wants him so, so much.
So much she knows she needs that touch
To lead the way to love.
She spies a gentle soul,
Waiting for her to find someone so,
So very sweet and kind
To lead the way, the way to love.
And now they have their space.
They've run the final race.
Love's given them a place
Where love can live.
Heaven is where they are.
Now they are finally home.
With love they have no need to roam,
Just look at them...
Can't you see how she,
She led the way to love,
How he, he led the way to love.
They are in love,
They are in love...
They are in love...
They are in love, oh they're in love.
