

# Braid, Breathe In

i want you to see me out  
you know you're bringing yourself down  
and i drink too much and  
you sing too much  
and i think you know it

i want to see you out  
you've got no inspiration  
to do anything at all

hey when i go out  
do i look like you do  
hey when i go on  
do i look like you do  
marigold mary goes  
"you gotta come out so we can see you"

we think we bring you down  
you're not alone in that  
you're not the first  
and i think you know it  
i want you to see you were right  
about inspiration and everything else  
but you said it wrong

hey look in the mirror  
it's not what you say  
it's how you say it.
