

Braid, Do You Love Coffee

Do you like sugar
A home sweet school
You're something so familiar
And so cool

So my phone
And a dial tone
Play ball on a short court
An overcaffeinated drone

Can I get you some sugar?
Im giving you my like
If thats not alright
I'll understand

Do you like coffee?

We like whine
Champaignful
although shes far away
I tastes her still

So my phone
And some friends back home
She's sweet enough
The perfect cup
And I drink alone

And call me sugar
I've got this question to ask her
Whatever the answer
I'll understand

Do you still love me?

(The young couple kiss slowly, kiss slowly)

The young couple kiss slowly
Two starfish in the sand
The young couple roll gently
Is my heart your home?
(never alone)
