

Braid, Garner Hall Music Room

1

close windows and drapes
to avoid flying glass and
water damage

2

close room door and
evacuate to the nearest
designated shelter area

3

do not use the elevator

4

seek protection from window areas
do not go outside the building
this is not a test

in the event of an emergency
don't forget to salvage the scene
a laundry list of spitfire items
and the ring you never wear

hall walls are painted planted
hall walls never sweat
hall walls can manage damage
but we never forget

5

assume seated position in a
shelter area and await notification
that the danger has passed

hall walls are cornered in corners
hall walls stay staked
hall walls can contact coroners
hall walls don't break
