

Braid, I'm Glowing And You're The Reason

today
i listed all my wants and needs
and i checked them off as i thought of us
dont throw this away
dont throw me away
we've got enough time to last a lifetime

it's snowing out of season
and you're the reason
its snowing out of season
listen to my heart

should have shook your hand
instead of holding it
should have been sleeping
now i miss you more than i would ever
