

BrainStorm, Lonely Feeling (To Be Lonely)

Like ships without anchors
Wide is the ocean, no islands, no shores
All is well, only
This is such a lonely feeling to be lonely
Fame is illusion
Bright are the lights and you -
You are left in confusion
All is well, only
This is such a lonely feeling
This is such a lonely feeling
Driving fast, as fast as I can
Or sitting quietly on the windowsill
You've got all and nothing
Just put no more loneliness on my bill
This is such a lonely feeling
All songs should be happy
Actors young and soap operas crappy
Movies are x-rays
Our destinies are choosing our ways
And what should we do?
To enjoy life the most
Or hiding like ghosts?
All is well, only
This is such a lonely feeling
This is such a lonely feeling
Driving fast, as fast as I can
Or sitting quietly on the windowsill
You've got all and nothing
Just put no more loneliness on my bill
Driving fast, as fast as I can
Or sitting quietly on the windowsill
You've got all and nothing
Just put no more loneliness on my bill
