

# BrainStorm, She's My Love

Someone wants her body  
And someone wants her mind  
And someone tells the stories  
'Cause someone wants her time

And someone wants her bedroom  
And someone wants her smile  
And someone wants to love her  
To love her for a while...

But she's my love  
I left her alone behind the door  
She's my love  
She'll never be loved by anyone anymore  
She's my love  
She'll never be loved by anyone...

And someone wants to take her  
And someone wants her dreams  
And someone wants to play games  
And she knows what it means...

'Cause she's my love  
I left her alone behind the door  
She's my love  
She'll never be loved by anyone anymore  
She's my love  
She'll never be loved by anyone...

Mmm...

Yeah, 'cause she's my love  
I left her alone behind the door  
She's my love  
She'll never be loved by anyone anymore  
She's my love  
She'll never be loved by anyone...  
She's my love (she's my love...)  
She's my love...  
But she's my love... (she's my love, she's my love...)  
She's my love (yeah)  
She'll never be loved by anyone...
