

BrainStorm, When Nightlife Covers The Daylight

Deep down in a jungle
Or being high in Hollywood
Girls are strangely smiling
And all the ladies feeling good
We have speakers over speakers
Devils dancing on a rope
Flashlights make a fever
The only thing we miss is hope
When nightlife covers the daylight
When nightlife covers the daylight
When nightlife covers it all
Glitter and the perfume
Laughter at the backroom
Another busy, busy day has come
A busy, busy day crawls like a snake
And when the snakes catch you in the corner
Just take a break, take a break, take a break!
When nightlife covers the daylight
When nightlife covers the daylight
When nightlife covers it all
Being high in hollywood
Or deep in a jungle
When nightlife covers the daylight
When nightlife covers the daylight
When nightlife covers it all
