

brakence, venus fly trap

A hypochondriac
I think of you, blood pressure spikes
I'll have a heart attack

(I am using my imagination)

I think it's better when she don't even ask me
Three chords and she all over me nasty
She got me smothered, caught me bugging her last week
Leave a scar on my soul
Cos it's smarter to fold
I think it's better when she don't even ask me
Three chords and she all over me nasty
She got me smothered, caught me bugging her last week
Leave a scar on my soul
Cos it's smarter to fold
I think it's better when she don't even ask

That kiss was laced with poison, I can't escape the rush
This ain't love, boy, you're just a pick me up
And then that gaze medusa, locks rattlesnakes, debuffed
No need to purchase my soul, girl, I'll just give it up

I'm like goddamn she slid and now we're breaking the ice
The concoction just hit me, it's dilating my eyes
Fuck my options, she pulled me in, she didn't even try
I was hypnotized soon as her lips met mine
(I can't forget)

I think it's better when she don't even ask me
Three chords and she all over me nasty
She got me smothered, caught me bugging her last week
Leave a scar on my soul
Cos it's smarter to fold
I think it's better when she don't even ask me
My corpse is spilling blood in the backseat
She's undercover, got a trojan to crash me
Leave a scar on my soul
Seeing stars in the road
I think it's better when she don't even ask me

She got this on repeat
I'm obsessive as her
She obsessive as me
Laments turn me to stone
And her curves got me weak
She want get us alone
I can tell she a freak
It be like
Oh no, she invited me to a pity party
Go home and hope you ain't leaving with nobody
But fate sewn, she'll take me back to her place
Can't say this shit to her face
Or make up my mind
I can't forget

A hypochondriac
I think of you, blood pressure spikes
I'll have a heart attack
The things I'd do to see you smile

Make my art entertainment
Carbon to coal
Now my card can't decline

And it cost my control
I'll let god integrate but until then I gotta give in to you

I think it's better when she don't even ask me
Three chords and she all over me nasty
She got me smothered, caught me bugging her last week
Leave a scar on my soul
Cos it's smarter to fold
I think it's better when she don't even ask me
Three chords and she all over me nasty
She got me smothered, caught me bugging her last week
Leave a scar on my soul
Cos it's smarter to fold
I think it's better when she don't even ask me
My corpse is spilling blood in the backseat
She's undercover, got a trojan to crash me
Leave a scar on my soul
Seeing stars in the road
I think it's better when she don't even ask

Don't even ask (Fall deep)

Then we vaporized till our fates aligned
I think we frayed the twine
Tethering space and time
I can't forget

Into those dreads
Your mind is programmed to drift on these words
Use my voice in your head as a thread to your heart
All that pain you're carrying, all that regret (She knows)
I can remove it, all you have to do is let me (She grows, she grows)

She grows through my throat and my chest
My tears were glowing when she muffled the screaming out
Hi-fi (Only remember you love me)
Stuck in amber and honey
My headache split wide awake
I'll hide the pain for you

Yeah, yeah, oh
Yeah, yeah, no (No)
Yeah, yeah, oh, oh, no, no, no, no (You left me nauseous)
