

# Bran Van 3000, Astounded (Plus Spanish Gibber)

All I want to do is love you  
I just want to take you there

Baby, I don't want to argue  
Don't even want to fight  
I just want to love you  
And hold you all the night  
The message from the party  
Nothing to do with how...  
Try to keep it happy  
Then depress yourself to cry  
All I want to do is love you

You've got to move on up  
You've got to move on up

All I want to do is love you  
I just want to take you there

The world is trying to make us  
Go against our will  
There's too many mountains  
Grown up from a hill  
Just take nothing less  
Than the second best  
Do not obey  
What most people say  
'Cause you can pass the test

All I want to do is love you  
Baby  
We've got to move on up  
We've got to move on up

All I want to do is love you  
I just want to take you there

All I want to do is love you  
It feels (like) I'm already there

The world is trying to make us  
Go against our will  
It's early in our language  
Of how the human feels  
I just want to love you  
I just want to cry

All I want to do is love you  
It feels (like) I'm already there
