

# Brand New, Jaws Theme Swimming

In a car outside  
We stalk the idle kind  
If you're leaving just let me know  
Tobacco and peppermint  
Dusting for fingerprints  
A film in her eyes from the glow

Some rules are made with all intentions to break  
And she defends them with a warped rationale  
But I've seen what happens to the wicked and proud  
When they decided to try to take on the throne for the crown

And we learn  
As we age  
We've learned nothing  
And my body still aches  
And you take  
Cause they give  
Though I love you  
And my body it leaks like a sieve

When it got cold outside  
Smoke beneath the playground lights  
If you're coming home, just let me know  
Sucking on your breath mint  
Dissected and stuck with pins  
A film in her eyes from the glow

Concrete and water  
She's looking for her daughter  
At midnight in torrential downpour  
And everything I said about how messed up your head is  
Were cut up and left in bits and pieces on the cutting room floor

And we learn  
As we age  
We've learned nothing  
And my body still aches  
And you take  
Cause they give  
Though I love you  
And my body it leaks like a sieve  
[x2]

Take a picture from off the wall  
When you think that nothing matters  
Take a picture from the bridge  
It's a long way to the floor  
Cut your finger on the edge  
Cause it's sharper than they told you  
Take a leap from out the window  
Cause it's way too far to go through the door

And we learn  
As we age  
We've learned nothing  
And my body still aches  
And you take  
Cause they give  
Though I love you  
And my body it leaks like a sieve
