

Brandon Heath, Let's Make It Last

Rain come down tonight
Except for the bump on my head
I'm feeling alright
Dancing to our favorite tune
I pulled you in way too soon
Bang went the drums, we went boom
Yea

Running through the yard
Splashing through puddles with you without regard
Do you think the neighbors will care
So what if they do they'll just stare
The kids will all say its not fair

The way that we love
The way that we laugh
It's something worth seeing
So let's make it last
Let's make it last

Come some sunny day
We'll call in sick to our jobs
What will we say
She's coming down with a flu
I think that I'm catching it too
This is what love makes you do

The way that we love
The way that we laugh
It's something worth seeing
So let's make it last

Live out each moment
They go by so fast
Let's make it last
