

Brandon Kane, Last Night

[Chorus:]

Ooh baby don't you wanna roll with me
I see just what i'm doin' is right infront of me
I'm knowin' that you really ain't the time to be
I wanna

(girl you need to rock with me)
You know your hotter then a fever girl
You really turn me on
Let me tell you something
that you really ought to know
it's wrong and it's so complicated
I know

(but it's more than physical)
the way you looked at me
girl you caught me by sukize
(caught me by sukize)
Cause I know that you be long
To you i'm not the guy
If I get the chance
(If I get the chance)
I'd like to be your man
and you know that I won't
Stop

[Verse 1:]

Thinkin' bout the girl I met
Last Night
I told your pretty face
I wish it was mine
To think about the way our love would be
And see how she walked away And left with me

[Verse 2:]

Ooh baby hope this ain't the roll for me
don't me no harm or disrespect you see
I'm close and personal I wanna be

[Chorus:]

(come on girl you know you can roll with me)
Girl your hotter then a fever girl
You really turn me on(on)
Let me tell you something that you really outta know
(really outta know)

It's wrong
(it's wrogn and it's so)
and it's so complicated
I know

(it's more than physical)
the way you looked at me

(by sukize)
Cause I know that you be long
To you know i'm not the guy
If I get the chance
(If I get the chance)
